

Hong Kong Company Setup Advisory & Implementation

THE OPPORTUNITY

Hong Kong can support a 100% foreign-owned limited company structure — but the real value is having ownership, banking and first-year compliance planned correctly from day one.

What you are really buying

OWNERSHIP	READINESS	CONTINUITY
A 100% foreign-owned Hong Kong limited company structure	Banking, secretary, office and compliance mapped before filing	One advisory team from setup through ongoing compliance

A strong fit if you:

- Want a 100% foreign-owned Hong Kong limited company
- Plan regional trading, services, holding or China-facing business activity
- Want banking, statutory setup, audit and tax compliance planned before incorporation

3-Step Progressive Engagement

Incorporation is only the first step. Ownership, director, company secretary, registered office, banking, accounting, audit, tax and annual filings should be planned as one operating system.

Recommended scope

- Business model, shareholders, director and beneficial-ownership review
- Company secretary, registered office and Significant Controllers Register planning
- Banking route, KYC profile and supporting-document readiness
- Company incorporation and statutory setup coordination
- Bookkeeping, audit, profits tax and annual compliance planning

How we work

01	Company fit review	Confirm the business activity, owners, director, registered-office needs and banking plan.
02	Incorporate & set up	Coordinate KYC, incorporation documents, company secretary, registered office and statutory records.
03	Activate & comply	Prepare banking onboarding and the recurring bookkeeping, audit, tax and annual-filing workflow.

FIT CHECK: INCORPORATION IS NOT THE FINISH LINE

Bank-account approval is separate and controlled by the financial institution. Annual return filing, Business Registration renewal, audited financial statements and Profits Tax Return filing should also be planned from the start.

Available ongoing support: company secretary, registered office, bookkeeping, audit and tax coordination, banking readiness and recurring corporate compliance.

Start with certainty.

Commit in stages, not all at once. Begin with a fixed-fee private case review before committing to incorporation, banking and first-year compliance work.

Why start with the private case review?

01

VALIDATE THE STRUCTURE

Confirm the company profile, owners, director, secretary, registered office and banking plan before filing.

02

REDUCE SURPRISES

Surface KYC, banking, audit and compliance dependencies before they become delays or extra cost.

03

PLAN WITH CLARITY

Move to implementation with a defined scope, sequence and final professional-fee quote.

IF THE REVIEW CONFIRMS HONG KONG IS THE RIGHT FIT

We will prepare the detailed implementation scope, sequence and final quote for incorporation, statutory setup, banking readiness and first-year compliance.

Your THB 20,000 case-review fee can be applied as a credit against UnionSPACE's own professional service fees if you proceed. Government, tax, audit, banking, registered-office and other third-party charges remain separate unless agreed in writing.
